EDUCATIONAL DVD'S . . . WHAT? WHY?

Fun DVD's that promote learning are excellent educational tools. We are having GREAT SUCCESS with those students who are using the DVD's from our Lending Library. Viewing time at home has quickly advanced several students to the top of their class.

Several parents have asked, "Where do we start?" We compiled our list by category and in the order they need to be viewed, since they progressively build on each other. So, just start at the top of the list for each category and work your way down.

We have added more copies to our library to allow the DVD's to be checked out for up to two weeks. This will give you more time to use them. If you need additional time, simply call the office for a time extension – for up to an entire month. We will also be adding more titles to the library as we find ones that work well with our curriculum.

We want every child to get to experience these wonderful educational tools!

Don't let your child miss out on this great learning experience!!
